The Mormons Jubilant.

SALT LAKE, April 16 —The telegraphic announcement this morning of the Supreme Court decision in the Engelbrecht case created a great sensation The Gentiles and Liberals, for the time, scarcely credited the dispatch The hope of the Gentiles now is not on the Voorhees bill, but on the failure of the admission scheme The Mormons of course, are jubilant—expressing gratification that they live under a high minded Government, which administers impartial law and even handed justice, without fear or favor

The Mormon authorities commenced making arrests this afternoon for refusals to pay the oppressive taxes An apostate to Mormonism—a merchant named Silver—was dragged over his counter and through the streets and all manner of indignity used toward him He was hand cuffed with wire wrist-cuffs and taken to the City Hall An intense excitement ensued Hundreds flocked to the Court room in an angry and determined manner Judge Hayden for the prisoner, alleged that a great outrage had been committed and demanded time to prepare his defence and said that bail to the amount of $10 000 was ready if necessary Silver was at length released on his own recognizance until Monday

Eastern capitalists and others engaged in the mining business express strong apprehensions of an injury to the interests of the Territory during the coming season if the present situation remains intact

Government by Party

The following excellent article is from the *Christian Union*, being an editorial by Henry Ward Beecher

Suppose that the Cincinnati Convention results in the nomination of a Republican of high character—for instance Mr Trumbull or Mr Greeley, or Mr Sumner Suppose that the Democrats make no nomination of their own Suppose, further that General Grant is renominated at Philadelphia What would then be the question presented to the voter?

The question would not be simply whether General Grant or his opponent is personally the better fitted for the office of President

Reason and experience show beyond all question that the character of an administration depends on something besides the President It depends even more on the party that supports him

At the very outset the President must appoint Cabinet officers, on whom devolves a double duty. It is they who immediately carry on the Executive part of the Government its foreign affairs its finances, the Post office the Army and Navy Departments etc Besides this, they are the immediate counselors of the President These Cabinet officers must be taken from the party that has chosen and supports the President

Further the Executive can do little to shape the general policy of the nation except in co operation with Congress It is in the latter body that the real center of power rests Thus the financial policy favored by the Executive may be utterly thwarted by Congress The foreign treaties it may make fail without the Senate's confirmation Every one of its appointments to office depends on the Senate's concurrence. In all the vast range of affairs which come directly under legislation the Executive can do nothing except through the party in Congress that supports it

If ever a President came into office seeming to stand above the necessity of party support and [illegible] that man was Gen Grant In good faith and with general approbation he made the attempt to disregard party considerations in his appointments The attempt broke down at the outset It had been shown again and again before that, that a President unsupported by a party can do little more than act as an impotent [illegible] to the Government. He is powerless to control or direct it

We repeat then that it is a question of prime importance on which the President will depend for the party support without which he is only a figure head

Now one thing about the next Presidential campaign is clear The mass of the Republican party will hold together in support of the Philadelphia nominee Say if you please, that they will be unwise in doing so the fact that they will do so remains They may be defeated but they will be strong enough to preserve their party organization, and to include in it a great majority of those who have been in it hitherto There are indeed hopes and fears that enough Republicans may leave the party standard to turn the scale in the national election But no man doubts that there will be a distinctively Republican candidate, and, that at the very least a very large majority of those now in the party will support him The New Hampshire election is profoundly significant as to this In the face of the disaffection of some of the party's most honored leaders the Republicans of that State not only kept their ranks together they were strong enough to beat all their enemies No be the issue of the Presidential campaign what it may, the Republican party will not cease to exist and be vigorous

Suppose then that the candidate of the Opposition be elected President By whose votes will he have been elected? In other words on whose support and co operation must the new President depend A handful from the Republicans, and the whole of the Democrats For every vote he might have received from a former Republican, he must have had ten twenty, from Democrats And the new party supporting him would be made up in overwhelming proportion of Democrats This is as plain as anything can be And in such a case it is certain as anything in history that the present members of the Democratic party would have an overwhelming influence in his Administration He would govern mainly through them, or he would not govern at all.

Could the country look with hope to an Administration so controlled for an improvement in its condition? The paramount issue of the time is purity of government. Does any man suppose that such an extemporized, and incongruous party would purify the administration of public affairs?

But, we are told, the new party would not be the present Democratic party We answer, it would be made up of all the present members of that party, reinforced by a few Republicans Call it by what name you please Write what you please in its platform Its rank and file would be the men who have hitherto resisted all those great ends and policies which have made the Republican party the party of progress of justice and of liberty Even if the leaders of the old *regime*—the Bourbons of America—should not rise to power, the subordinates would soon create a public sentiment around and within the party which would prevent the very reforms for the sake of which so many are clamoring for a new party

There are other great issues to be settled. Reconstruction and the status of the negro are not yet a sealed book Eight years after the war is far too soon to have settled forever the questions which it bequeathed Is the country willing to trust these matters to new hands, or to a jumble of wise orators, and cunning politicians? Would the financial question and the Indian question and all the questions of domestic and foreign policy, be safer under a virtually Democratic than under a Republican Administration? Above all could the great reform of the time—the purification of the civil service—be furthered by making the present Democratic party the predominant power in the Government?

These are questions that ought to be well weighed before the lines of the campaign are drawn It is natural to chafe at present imperfections, and to look hopefully for some new and complete deliverance. But at such a crisis men ought to fully understand what they are doing With such a course of things as we have supposed, the question for voters would be, not between Mr Trumbull, or Mr. Greeley, or whoever he may be, and General Grant. It would not be between *men*, but *parties*, between the old Democratic party, revamped and faced with a few virtuous and impracticable Republicans, and the Republican party—somewhat battered by a long and stormy voyage, but sound and seaworthy yet.

The Commissioner of the Internal Revenue Bureau has directed the commencement of suits against several national banks in various sections, for not having made correct returns of their profits, they having deducted local taxes from the total amounts of their dividends The penalty is five thousand dollars in each case

A Pea Successfully Extracted from the Ear, after having been imbedded against the Drum of the Ear for Eight Months.

PORTLAND, April 8 1872.

To the Public

I hereby certify to the skill of Dr Aborn in the treatment of my son In August last he got a large pea into his ear [illegible] were applied to without success The pea soon caused inflammation and a fungus growth [illegible] filled up the entire ear and of late a bloody discharge oozed from the ear and I became [illegible] alarmed about his perilous condition After satisfying myself that Dr Aborn was a skillful surgeon in all such cases I applied to him, on Wednesday last, with my son and placed him under his care He destroyed the fungus growth so as to make a passage back to the pea, and on the fourth day he succeeded in removing all the fungus growth and [illegible] of the ear Then by the aid of his scientific instruments we could plainly see the pea embodded against the drum of the ear The pea was removed the same evening, without pain The hearing in that ear, which was destroyed, is now, by his treatment, restored, so that he can hear a watch tick. Only for the timely aid of the skill of Dr Aborn I feel satisfied that my son would have lost his life It was through the card of Capt Pease that I applied to Dr Aborn; so I give this card to the public with the view that it may be the means of benefitting some one

WEDNESDAY MORNING APR

Dissention Ahead

The original call for [illegible] convention [illegible] New York Tribune says:

"If the Liberal Republicans were [illegible] to take the field against Grant [illegible] ignore the great subject [illegible] right to complain. But if they expect Democratic support we forewarn them that they must boldly show their colors on the tariff [illegible] The Democratic party [illegible] votes and while it is ready [illegible] issues for the sake of co-operation [illegible] pate in no arrangement [illegible] important live questions [illegible] Convention choose [illegible] their right, and we will not [illegible] reckon on Democratic and they must [illegible] regard to Democratic wishes."

So here is a nice little quarrel between the anti Granters which threatens to dissolve the coalition even before the Convention meets. But it is very questionable whether even the Democratic party would not be willing to surrender free trade to secure the New York *Tribune*. How little sincerity there is in their free trade clap trap is shown by the recent vote in Congress on the proposition to take off the duties on tea and coffee, a proposition directly antagonistic to free trade principles, and yet which received the vote of two-thirds of the Democratic members. Another still more distinguished proof of their readiness to abandon free trade if they can make anything by it is afforded in the very general indorsement by leading Democratic newspapers of the nomination of Judge Davis by the Labor Reform Convention at Columbus on a protective platform. In view of this fact the Chicago *Journal* makes the pertinent suggestion that Greeley might compromise with the Liberal Republicans and Democrats by uniting with them in the acceptance of the Columbus nominations, and that, with one foot on the protective plank of the Columbus platform and another on a free trade platform, Judge Davis might ride both horses and drag the Democracy by the tails of both animals.

Mrs Victor's New Book

In her new book "All Over Oregon and Washington," Mrs Victor has done herself as much credit as she has done this section of country service. As a writer she has not much imagination and but little skill in word painting, but she has practical judgment and strong good sense. She gains strength as she continues her literary work, and in point of execution this book, we think, shows many improvements over her previous efforts. There is manifest in it a very commodious arrangement and distribution of matter. The book is both historical and descriptive. In it are embodied for preservation a great many historical facts and incidents which, with the lapse of time, were likely to have been lost. Mrs. Victor has certainly been an industrious and discriminating gleaner in this field. Interspersed with descriptions of the country in every chapter, an interesting fund of early local incidents is presented. This method is a great improvement upon a dry descriptive recital of the physical appearances and resources of the country.

By this book Mrs Victor will do a great deal toward bringing Oregon and Washington into notice abroad. The style, though by no means rich in imagery, and making no pretensions to splendor, is nevertheless agreeable, and the manner in which the materials of the book are grouped and arranged is really deserving of praise. Pains taking industry is manifest in every chapter. The appearance of the volume is all that could be desired. It contains 368 large pages and is handsomely printed and bound.

A gentleman named Loveridge who was imported from the East some months ago to "run" a paper at Olympia, has made an utter failure of it and now wishes to obtain celebrity by announcing his apostasy to the Republican faith and his determination to oppose the re-election of Grant. So that the one lonely gentleman at Forest Grove in this State who has "gone back on Grant" can find a congenial spirit by making a pilgrimage to Olympia. If Mr Loveridge is no more powerful in his new *role* than he was successful as an editor, hopes may be entertained that the Republican party and its candidate for President will not be utterly crushed. Mr Loveridge is a pretentious but flighty and insipid sort of gentleman, whose principal object for the present is to gain notoriety.

In his jeremiad about "military tyranny" the other evening Mr Burnett spoke of the military occupation of Chicago after the fire, which he called the fruit of "Radical policy." The military, he said, by Federal authority and without the request of the Governor or municipal authorities, had been placed over the city, and the consequence was that a leading citizen was killed. Mr Burnett should know that the military under Gen. Sheridan undertook this police duty on that night of conflagration and horror at the especial request of the municipal authorities and discontinued it as soon as order could be preserved by the regular police. Where then was the "usurpation"?

Marion county wants the Legislature at the coming session to take measures for the speedy erection of State buildings at Salem. It should be done. The seat of Government has been fixed at Salem by the votes of the people, and it is time something were done toward the erection of a Capitol. With the progress of the State in population and all the industries it is fit that she should have public buildings which will correspond with her growth and prosperity. Many places formerly competed with Salem for the capital but there is now general acquiescence in her retention of the honor.

John Burnett, Democratic candidate for Congress, in the course of his recent speech in Portland denounced the whole system of land grants for railroads, said that the whole public domain ought to have been kept for the people, declared that it was robbery to build up powerful corporations by such means, and demanded that no more grants should ever be made.

The *National Republican*, Washington City, stated on the 9th instant that Senator Sumner has announced his intention to make no further opposition to the renomination of President Grant, and that if the Philadelphia Convention selects him as the standard bearer of the Republican party he (Sumner) will stand by the labor to secure his re-election.

Mr Trumbull as a Reformer

Senator Trumbull, who is virtue itself [illegible] respect [illegible] the distribution of patronage, that he [illegible] seeker [illegible] attained this exalted eminence [illegible] [illegible] Mr Trumbull [illegible] Republican [illegible] State [illegible] Mr Jayne [illegible] delicate position [illegible] Jayne's resignation [illegible] other hand [illegible] personal honor and kindly feeling toward all who were [illegible] rendered him very desirous that all possible to please Mr Trumbull, who had once been his political and personal opponent. His generosity finally triumphed over his sense of political expediency and the oft repeated applications of Mr Trumbull were rewarded by the appointment of the brother in law to the much coveted Governorship. The result was precisely what had been predicted. A Democrat was elected to the place created by Dr Jayne's resignation from the Senate and William A. Richardson became a colleague of Mr Trumbull in the United States Senate. This simply because Mr Trumbull was more anxious that his brother in law should have a fat Government place, than for the honor of his State and the interests of the Republican party, which was then entering upon its great struggle for the life and perpetuity of the Republic. Notwithstanding the remarkably generous conduct of Mr Lincoln he had not served out his first term before Mr Trumbull again became his political enemy, secretly scheming to defeat his nomination.

There are more signs that the Democratic party of the Eastern States is about to fall in with the Cincinnati Convention. Here for the Cincinnati [illegible] Democratic party would be like the following, the dog. But strange phenomena often occur in politics.

The Democratic party of Oregon having placed the commerce of the Willamette valley in the hands of one man now censure the Republican party for this state of things. Cheek, for you.

SHORT PARAGRAPHS

The Committee on Appropriations agreed to report favorably on the application of the Secretary of the Interior for seventy five thousand dollars to enable Professor Hayden to continue geological researches in the Yellowstone region.

Gov Noyes of Ohio says the universal demand of the Republican party is [illegible] the renomination of President Grant, and he approves it. The [illegible] of Gov Noyes [illegible] to be a triumph of those opposed to Grant.

Horace Greeley has singled out one instance of corruption in the New York Custom House at any rate. He charged and swore that Custom House officers were in the habit of spending money, time and influence in controlling the primary elections and the State Conventions. From the testimony of Naval Officer Laflin and ex Collector Murphy it appears that the only instance of the kind within their experience was when they tried to effect the nomination of Mr Greeley himself for Governor of New York. H. G. is entitled to great credit for having exposed this infamous piece of business.

The question of the amount to be allowed the Western Union Telegraph Company for the transmission of the weather telegrams of the Signal Bureau was considered by the Committee on Appropriations and the sum agreed upon is two hundred and twenty five thousand dollars. Last year's appropriation was one hundred and two thousand dollars. The committee are of the opinion that, under the law granting the right of way across the continent for a telegraph line, the company is compelled to transmit Government messages free. The apportionment made by the committee is also intended to cover all deficiencies due the Western Union Company. The sum asked by Mr Orton was two hundred and fifty thousand dollars.

A German paper in Kentucky, the Louisville *Volksblatt*, defining the political position of the German Republicans of that State, probably defines the political position of German Republicans everywhere throughout the Union. It says: "The German Republicans of Kentucky do not belong to the band of partizans of Grant; they bow themselves into the dust before no man, whether Grant or Schurz; but they are men who highly regard the Republican principle, and only in the Republican party recognize the champion of their own principles. Faithful to this conviction they will support the candidate nominated by the Republican National Convention in Philadelphia [illegible] not fail will rest [illegible] State of Kentucky to freedom and progress."

John W. Keenan, writing from Soda Springs, Oneida county, Idaho, says: "This is going to be a good place to make money in, for the railroad will be here by November next and this will be the shipping point for Montana and the Northern mines which are going to be good. Mining Affairs in Idaho

From the [illegible]

[illegible] and the bright light [illegible] wonderful sight [illegible] the warm spring weather [illegible] Bear Run [illegible] [illegible] companies are pushing work in a lively manner. On Bear Run, Keller & Bidwell and West & Ralston have been working for ten days or two weeks past and are running up an amount of tailings into the upper portion of Main street. None of the long flumes have as yet been cleaned out, but work is now being done on the Morrison ditch, and it is expected that they will get the water through in from ten to twelve days. Next week work will be commenced on the [illegible] ditch for the purpose of getting the water through as early as possible, but nothing will be done on the M [illegible] Creek ditch for two or three weeks yet. [illegible] Willis has got the water through his upper ditch upon Gold Hill and is washing his claims near Lincoln Gulch, and [illegible] expects to have water running in his ditch [illegible] Bear Run [illegible] Moore Creek [illegible] have as yet commenced, though [illegible] have for weeks past been getting everything ready to open [illegible] through their ditch [illegible] there are now at this camp from [illegible] hundred and fifty to three hundred [illegible] and in a couple of weeks more, if the present mild and open weather continues [illegible] that number will be engaged in [illegible] There is an abundance of snow in the mountains and everything augurs well for a prosperous mining season. At Pioneer City the snow is still about three and a half feet in depth and no mining operations in that camp will commence for probably a couple of weeks yet. At [illegible] and Granite Creek we learn that the season is also backward, with little prospect of active mining operations commencing for ten days or two weeks hence, but good accounts will be received from all the Basin camps when the claims are clear of snow and the ditches running full of water.

Missouri Politics

[illegible] IN 1870 AND [illegible] 1871

From the St. Louis Democrat

The Missouri bolters of [illegible] the great and good Mr Greeley [illegible] journal [illegible] they were [illegible] censured [illegible] utterly [illegible] were declared to have betrayed the national party and cause and for free trade. This journal ventured to give the denial to these aspersions and Mr Schurz controverted them in the Senate, but they were nevertheless persisted in. Our position was that the bolt was a local and temporary affair not involving the loyalty of the participants in it to the common Republican cause and that when the proper time should come they would be found in the ranks of their party and uncompromisingly hostile to Democratic ascendency.

The proper time has arrived and it is now pertinent to ask, not only where are the Missouri Liberals of 1870, but where is Mr Greeley. We are happy to assure Mr Greeley and he may readily satisfy himself of the fact that the tens of thousands of Republicans who voted for Gratz Brown in this State and were so stintlessly slandered by him for doing so, have falsified the calumnies he then heaped upon them and we regret to add that while they are doing this he is himself fulfilling the part which he prophesied for them. Two or three of their leaders have yielded to the temptation to which he also has succumbed and he now stands with these two or three fallen leaders, while the liberal masses of Missouri repudiate both him and them. He cannot have studied the progress of events and the signs of the times in this quarter if he is not uncomfortably sure [illegible] that this is the fact.

The Missouri bolters of 1870 pleaded their local cause within the local party. They manfully plied argument, remonstrance and persuasion to determine, if possible, the composition and action of their State Convention and with all the force they could muster they went into their Convention. Mr Greeley, who then gave them his prettiest abuse, now supports a standard of revolt against his party. To its National Convention, in advance and instead of directly seeking to influence its complexion and action, proclaims war upon it and its candidate beforehand. He is for the Cincinnati thing and a Democratic [illegible] the national [illegible] effort laboring to keep out of [illegible] even those who [illegible] to him [illegible] Against his protectionist conviction and against his own teachings on the national issues Mr Greeley joins a Republican [illegible] for a Democratic alliance three months before a Republican Convention can have done or omitted aught to justify his displeasure, thereby forfeiting his right to complain of its action whatever that shall be. How does his course contrast with that of the Missouri Liberals of 1870. He accused them of free tradeism but they have not had enough of it to separate them from protectionist Republicans. His Republicanism did not prevent him from affiliating with free traders [illegible] opposition [illegible] legislation under the [illegible] party.

[illegible] consistency. With us in 1870 the question was [illegible] the suffrage of those who were disfranchised for disloyalty. It was [illegible] with the question of Republican strength in Missouri in 1870. With that enfranchisement either unrepealed or repealed by an exclusive Democratic victory the Republican party in Missouri would have been more totally shattered [illegible] Mr Greeley [illegible] Missouri [illegible] Democratic [illegible] In this view [illegible]

[illegible] speaking of the [illegible] says [illegible] [illegible] the difficulty in reaching [illegible] after the [illegible] Democratic party [illegible] gloriously [illegible] the [illegible] for the last ten years. They had the principles to stick to principle [illegible] and [illegible] living question and [illegible] principle they fought [illegible] [illegible] politics. The lesson we [illegible] benefit of the [illegible] similar tactics will inevitably [illegible] the present administration with its syndicates, railroad, national work, tariff, general order and military ring attachments.

Why not in this country also? A Berlin contractor of mason's work was lately condemned to two years imprisonment and the carpenter to one and a half years imprisonment by one of the German Courts for criminal neglect in their work, the building falling in [illegible]

CITY.

REMOVED

The Office of The Daily [illegible] is removed to the S. E. corner of Stark and Front streets.

Crops in Yamhill County.—A gentleman just from Yamhill county gave us a call yesterday. From him we learn that the prospects for a good crop in that county are very flattering. Wheat and oats are looking well. The farmers are busily engaged in putting in their crops. The weather of the past month has been such as to give strong hopes of an abundant yield of the cereal this season. Fruit crops look promising, but the nights are rather too cool, and caterpillars are beginning to make their unwelcome appearance. Unless some means are devised to destroy them, their ravages will seriously affect the crops. A good degree of prosperity seems to exist among the Indians on the Reservation. They are engaged in planting unusually large crops of potatoes, vegetables and corn this season. The disaffection which was manifested by them some time ago at the frequent changes of agents, has subsided in a great measure, and they have gone to work with a purpose. The saw mill on the reservation has been repaired and is in fine running condition, and the old dilapidated huts are being repaired, or new ones built. Mr. P. B. Sinnott, of this city, has taken charge of the Reservation.

Police Commissioners.—The Board of Police Commissioners met last evening. Present—Hallock, Burke and Semple—Hallock presiding. The watch-book was examined and found correct and satisfactory. A petition from H. J. Twomey, purporting to be signed by fifty-one citizens, desiring the Police Commissioners to grant permission for him to act as private watchman, was received. The Commissioners declined to take any action in the matter, as the names of the petitioners were written in the same hand, and the original petition was not produced. It was ordered that the original names of the signers must be subjoined to the petition before any official notice could be taken of it. The bill of Emil Lowenstein & Co., for $61, was [illegible] and allowed. On motion, the Board adjourned.

Mr. Simpson's Lecture.—The lecture of S. C. [illegible], Esq., before the Young Men's Christian Association last night was attended by a rather small, but appreciative audience. The speaker showed that he had given his subject much thought, and his views were expressed in chaste and elegant language. We have long considered Mr. Simpson as a clear thinker and an able [illegible]; and a somewhat more studied style of delivery would render him one of the most popular and entertaining lecturers in our State. The subject of last evening was one which involves [illegible] of much intricacy and important principles of International law, and to thoroughly master it would require a vast amount of research. We are precluded by want of space from giving a synopsis of Mr. Simpson's lecture last night.

Plaza Concert.—The Portland Brass Band, Prof. John Cordes, leader, will render the following programme this evening at the Plaza:

1. March—C. Faust.
2. Quadrille—Gungl.
3. Andante Mafer—Herzog.
4. Thalia Polka—Herzog.
5. Waltz—Powder.
6. Hansa March—L. Weber.
7. Anvil Polka—Parlow.
8. Galop—C. Faust.

New Improvements.—Plans and specifications have been drawn, and the contract will soon be let, for the erection of a building at the corner of Third and Alder streets. The building is to be erected by Mr. Chas. Weigand, on the present site of his residence, opposite the Masonic Temple. It is to be 40x50 feet and two stories high, built of wood with a brick basement. The lower story will be divided into two store rooms and the upper into offices.

Gas.—The municipal government of Philadelphia furnish gas to consumers of superior *eighteen candle* power, at $1 25 per thousand feet. The Boston *Globe* complains of the gas monopoly in that city, because it charges $2 75 a thousand feet. This reads curious to people of this city. But high as the rates for gas are here, it is a [illegible] monopoly compared with the extortionate water rates.

Expression of Thanks.—We have been handed the following expression of thanks by the Secretary of the Ladies' Relief Society, Mrs. J. C. Ainsworth, of this city: The ladies of the Relief Society desire to return their thanks to Messrs. Protzman, Gillihan & Co. for their very [illegible] donation, during the past winter, of women's and children's gaiters for distribution among the poor.

For Olympia.—A large logging truck, portable engine and a boiler were taken away last evening on the *California*. Their destination was Olympia. The machinery is to be used in connection with the portable saw mill of I. R. Moores & Co., near that place. We learn that this firm have the contract for sawing out a large number of railroad ties for the Northern Pacific Railroad Company.

Read This!—Tax-payers are very respectfully informed that the time for the paying of city taxes has nearly expired, and that a penalty of five per cent. must be added to all who do not pay. Unless payments are made with more promptness, the Chief of Police will proceed to [illegible] in the usual manner. Out of about $60,000 taxes, only $16,000 has as yet been paid into the treasury.

Sailing of the California.—The steamer *California*, Hayes, master, sailed for Victoria and Sound ports last evening. She took away the following passengers: A de Sequiera, M S Stone, Mrs M House, Miss A Highland, Mrs A J Rice and infant, Mr Wright, Mr Walst, Mrs J Driggs, Mrs I Froman, Joel Ketchum, Mrs I Driggs, Rev D E Blaine, W H Pope, H B Carr, and 12 in [illegible].

New Brick.—Workmen have commenced to excavate for the foundation of the new brick building on Front street, between Ash and Vine. This building will be erected the coming season by L. R. Thompson, Esq. It will front 50 feet on Front and First streets, and extend entirely through the block. When finished it will be three stories in height and will be used as a warehouse.

Supreme Court Decision.—Mr. J. P. O. [illegible] yesterday received a dispatch from Hon. Geo. H. Williams, his Attorney at Washington City, stating that the Supreme Court has [illegible] the case of Lamb et al. vs Davenport in [illegible] to the south half of block 6 in this city. The decision is in favor of the Lownsdale heirs, [illegible] the decision of Judge Deady.

Machinery for the Sound.—The steamship *California* carried away last evening two engines and a boiler for Victoria, B. C. This machinery is to be used in propelling a small steamer that is being built at that place by Hon. Allen Francis, late American Consul. The steamer will ply on the Sound waters as a trader.

Blooded Bull.—A fine young blooded Durham bull, from the farm of James Chambers, of King's Valley, Benton county, came down the river yesterday morning. This animal belongs to Captain A. S. Bush, light tender at Cape Disappointment, and will be placed on his farm at Clatsop Plains.

Taken to the Asylum.—Mr. Chas. Bryant, who was struck helpless with paralysis several months ago, was removed to the Asylum yesterday. He had been provided for at the International Hotel for the last two months.

From Eugene.—A gentleman from Eugene informs us that building is going on rapidly in that city at present. Hallett & Hughes paid off the men employed by them on the railroad, a few days since.

Run Over.—A small boy named Dunlap was run over on Monday afternoon by a dirt cart. One of his legs below the knee was badly crushed. Amputation it is feared will be necessary.

Temperance Society.—The members of the Father Matthew Society are requested to meet in the Library Rooms this (Wednesday) evening.

Death of a Sister.—Sister Philomon of the St. Joseph's Hospital, of Vancouver, died at that place on last Saturday.

LOCAL BREVITIES.

Council to-night.

Amusements plenty.

Linen coats are in order.

Plaza concert at 5 P. M.

Millinery stores increasing in number.

City tax payers come forward and pay up.

A small sprinkle of straw hats yesterday.

J. T. Brown, Esq., of Eugene is in the city.

Good weather threatens seriously to come at last.

No Eastern mails by train yesterday—the steamer.

Charming—"Dolly Varden" hats, so say the fair sex.

"Dolly Vardens" are commencing to make an appearance.

Nights are now clear and cloudless. Look out for J. Frost.

Repairs to the steamship company's dock have been completed.

The sidewalks were white and crisp with frost yesterday morning.

Street and sidewalk improvements are moving forward with activity.

The young bloods of Vancouver have a small fleet of sailing vessels.

Reckless riding and driving on the principal streets should be stopped.

Mr. L. F. Mosher, of the Roseburg *Plaindealer*, called on us yesterday.

Boot blacking business increasing since there is a prospect of good weather.

T. G. Murphy lectured at Vancouver on Monday evening against "Woman Suffrage."

A cotemporary says "plant shade trees." We haven't needed any this season as yet.

L street has been nearly filled up across Couch's Lake. Teams and pedestrians can soon cross.

The *Herald's* young man is well pleased with the appearance of the new city jail. That is gratifying.

Peach and cherry crops are likely to receive much injury should these cold frosty nights continue.

Those who remained on the sunnyside any length of time yesterday, were attacked with spring fever.

Mr. Holladay went to the front, about thirty miles beyond Eugene, yesterday morning, and returned late last evening.

Boys still persist in fishing along wharves on Sunday. Something more serious than a "ducking" may result from the habit.

"Tall swearing" is done by the teamsters who compel their horses to drag heavy loads from the ferry landing to the street above.

Judge Joseph G. Wilson and John Burnett spoke last evening at Oregon City. This evening they address the citizens of Salem.

The steamer *Vancouver* brought up yesterday from St. Johns 80 barrels. They were consigned to Leveridge, Wadhams & Co. of this city.

The Labor Exchange should be re-established to accommodate the many persons who, Micawber-like, are "waiting for something to turn up."

Stamp your papers when you mail them. A great many overlook this, and those who do so, will not be pleased to know that the papers they mail, not pre-paid, are thrown in the waste box.

Letters eighteen days from Liverpool, England, to this city is quick time. A month ago our citizens would have been glad to have received letters from the States with the same dispatch.

A number of citizens of San Francisco have petitioned the Board of Supervisors to suppress the try known as the "devil's fiddle." The boys here have wisely discontinued its use. "Satan's violin" is traveling up the valley at last accounts.

REV. C. M. BLAKE'S CASE.

In the matter of J. Bloom; motion to set aside order of adjudication, and proceedings be dismissed and bankrupt be discharged. Granted on payment of costs.

Adjourned until Tuesday, April 23d, at 10 A. M.

Arrival of the Ajax.—The steamship *Ajax* arrived here last evening from San Francisco at 6 o'clock, with the following passengers: Mrs West, N G Watts and family, L M Swift and family, T Mussbaum, J P Lemart, C Bosley, A C Cullon, L Prayer, Mrs M Warner and 2 children, Mrs J H Nilson and clerk, M Collins and family, A Goldsmith, H Appel, E G Crane, E D Cohen, S S Smith, Rev A Myers, F Cassin, James Gloyer, Thomas Farry, Mrs L P W Quimby, J R Coulter and wife, S Levy, C H Fuller, George Sasser, W H Stearns, R S Poindexter, H M Prayor, D Harvey, M V Knountze, Mrs Joseph Wilson, H Parker, Mrs M Applegate and child, J K Cline, J T McCabe, S Clein, S Smith, M T La Grange, W T Dixon, L Seaman and family, A Cullin, T Armburg, Charles Ross, A Gautquet, T Jawwig, E Dixson, P G Eastwick, Mr Ware, Dr H M Eldery, P M Fallonsly, J C Carrager, Mrs Longrevy, T Levy, E F Standard, W F Moore, J W Williams and son, Mrs Lyons, and 115 others.

New Books.—The following new books have been received and placed on the shelves of the Portland Library:

The Comic Almanac: an Ephemeris in jest and earnest, containing merry tales, humorous poetry, quips and oddities, by Thackeray, Albert Smith, Gilbert A. Beckett and the brothers Mayhew, with many hundred illustrations by George Cruikshank.

An Examination of Canon Liddon's Bampton Lectures on the Divinity of Our Lord and Saviour Jesus Christ, by a clergyman of the Church of England.

Illustrated Library of Travel, Exploration and Adventure, Wild Men and Wild Beasts, or Scenes in Camp and Jungle, by Lieutenant Colonel Gordon Cumming: edited by Bayard Taylor.

New Nursery.—We learn that Mr. Morgan, one of the florists of this city has leased the farm of Capt. Hennes, about one mile from the corporate limits of Portland, for a term of five years. It is the intention of Mr. Morgan to plant an extensive nursery, including a great number of ornamental shrubs, flowering plants, etc.

Time of Sailing.—The steamship *Ajax*, which arrived at this port last evening, will sail for San Francisco on Friday, the 19th instant, at 6 o'clock P. M. The steamer *California*, which sailed for the North yesterday evening, is announced to sail again from this port on the evening of the 27th instant.

Changed his Base.—Henry Martin, the Grocer, so long established in the Odd Fellows Building, Alder St., has transferred his stock to 131 First street, where he has added new goods and will be happy to greet his old patrons and the general public. Martin is one of those men who knows how to make friends and keep them.

POLICE COURT AND CITY JAIL.

The brick work to the new Police Court and City Jail, at the corner of Oak and Second streets, has been about completed, and it will probably be ready for use in the course of two months. It will be a very substantial building when completed, and will add much to the appearance of that locality. The erection of a more commodious city jail, where violators of ordinances and unfortunate victims of intemperance of both sexes, could be confined in perfect safety, and with some degree of comfort and decency, has been a want long experienced in Portland, and which the rapid increase of population and a corresponding ratio of crime, has at length rendered imperatively necessary.

The present city jail has long been a source of disparaging comment, and we feel gratified to state that it will soon be abandoned to the "bats and owls," and that its narrow limits, improper location, and entire absence of sanitary considerations, will not much longer haunt the imaginations of unfortunates with its contaminations of filth and squalor. Under the existing *regime*, offenders are huddled together in the old jail, without much discrimination as to sex or degrees of crime. This can be obviated when the new building is ready to receive its inmates. Ample arrangements have been made in the architectural design of the new building, and in the judicious distribution of the apartments. Unfortunate females are apportioned to the third story, and other crimes in accordance with their degrees.

This edifice is constructed of brick in a neat but substantial manner, after a style known in architecture as the "Bracketed Style." It has a frontage of 43 feet on Second street, and 75½ feet on Oak street. The building is three stories in height, divided as follows: 1st story, 10 feet; 2d story, 18 feet; 3d story, 12 feet. On the east end, the building is lighted by nine windows, and on the south side by thirteen windows.

The entrance to the building is from the south side—two doors leading to the first and second stories.

There are on the first floor a jail room, 30½x38½; three cells, each 8½x13½, (these cells are not lighted by windows, and will be used to confine violent or refractory prisoners), a hall 16½x22½; a bunk room, 9½x15½; a kitchen 12x15, and a jailor's room, 12½x15½.

The second floor is subdivided as follows: A large, commodious court room, where offenders are to be tried, 25½x40; Judge's room, adjoining the court room, 13½x16½; City Attorney's office, 13½x14½; two closets to the rear of the Court room 7½x8, the other, 8x8; Police Commissioner's office, 15½x23, Chief of Police office 7½x23.

On the third floor are three rooms for the confinement of female prisoners, two of them 16x16, and one 16x32½; a dark room, (for turbulent inmates) 16x16, a closet attached 8½x10, a boy's room, (to confine juvenile offenders) 16x32½; two bunk rooms, each 11½x16.

The building will be hard finished, with the exception of the cells and dark rooms, which are to be ceiled. On the "battlement" at the southern side of the edifice, will be the letters, in bold relief, "Police Court, 1872."

Mr. A. A. Williamson is the contractor, and the plans and specifications were drawn up last fall by Messrs. Burton & Piper.

AMUSEMENTS.

The Parlor Entertainment at the Unitarian Chapel promises to exceed former affairs of the kind that have been given. See programme.

The Montgomery Guard will entertain their friends at Armory Hall this evening. The affair will be a pleasant one. The supper will be served at the Lafayette restaurant.

Grand Benefit.—The numerous pupils of Prof. Chas. Cardinell, have tendered him a grand complimentary benefit. This ball, which is intended to be one of the most attractive of the season, will be given at the Armory Hall on the evening of the 30th inst.

The Masquerade.—Messrs. Myrick & Dodge announce in our advertising columns that they have erected additional seats in the auditorium for the accommodation of all who may attend the Carnival at the Rink to-morrow evening. We refer our readers to the advertisement for further particulars.

The Benefit.—Oro Fino Theater was densely crowded with a fashionable audience last evening, on the occasion of Mrs. Waldron's benefit. The audience was well pleased with the programme, and manifested their appreciation by several *encores* and calls before the curtain, of the beneficiary. The programme was *Pet of the Petticoat* and *Two Puddifoots*. Between the acts were several songs and dances from volunteer talent. To night the same bill will be repeated.

The National Game.—Base ball is indulged in to a great extent by Young America in this city, and they do the thing handsomely too. We should like to hear of the re-organization of the Pioneer Club. Most of the members that composed the old nine are in the city. The Salem club will be issuing challenges, and we ought to be prepared to accept any "deft" that may issue. Eleven clubs have entered for the championship in the States.

TO-DAY'S ADVERTISEMENTS.

Diseased Digestion.

If chronic indigestion affected the stomach only it might be more easily borne, but it gives rise inevitably, to many other diseases affecting the liver, the nerves, the bowels and the brain. Biliousness, nervous tremors, constipation, headache and terrible mental disturbances are among its usual accompaniments. In fact, every organ, every fibre of the frame sympathizes with the debilitated and diseased stomach. What is needed in such a case? Clearly an alterative and invigorant; and among medicines of that class Hostetter's Stomach Bitters is, beyond all comparison or estimate, the best. Mere purgatives only deprive the system of the little strength that disease has left it. Stimulants have the same effect. The whole internal organism has gone wrong, and can only be put right and kept so by a medicine in which the tonic and stimulating effects are combined, but are qualified and modified by antibilious aperients and blood-purifying components. Now, the truth is and the medical faculty as well as the public know the fact, that Hostetter's Bitters contain every ingredient requisite for the cure of dyspepsia and all the ailments of body and mind which it involves. This has been proved in so many thousands of instances that it seems almost idle to repeat the statement.

The great tonic rallies exhausted nature, from whatever cause enfeebled and permanently recruits the vigor of the nerves, the muscle and the brain. Its effect upon the brain is to give strength to the will and precision to the judgment, and to banish despondency and that infirmity of purpose which generally accompanies bodily weakness.

My Boy.

My little boy lies sleeping. Stirless now
Are the bare feet so quick and restless lately,
And the blue eyes beneath his thoughtful brow
Are closed sedately.

One hand lies hid among the locks that float
In careless grace upon the yielding pillows;
The other on his breast rides like a boat
On summer billows.

About the couch where they are waking [illegible],
His wit our playthings [illegible] of [illegible],
And, underneath, the shoes he thought to hide
In safe seclusion.

He calmly sleeps. The wind moans at the door,
And in the room the firelight's flitting gleaming
Makes pleasant shadows on the crimson floor,
I sit a dreaming.

I see afar the veiled uncertain land,
That in the future waits his manhood's coming,
And strive to fascinate, with love's strong hand
Its mists benumbing.

And is he of the race of laureled kings,
The wearers of the purple of the poet
Or like the heroes whom the poet sings
His life will show it.

O, if he be a soul from falsehood free,
Though he should wear no laurels, sing no story,
To bear his part with honest men shall be
Enough of glory.

Holly Water Works.

TESTIMONY TO THE VALUE OF THE HOLLY SYSTEM.

[From the Sacramento Bee.]

The system of water supply proposed by the City Council is not the production of theorists, nor is it a mere experiment to test somebody's theories. The system, in all its features, has the testimony of experience in its favor. We wish now to give a few testimonials of the value of the Holly Works over the ordinary fire engine system.

As a still more conclusive testimony in this direction we offer the following answer by the City Clerk of Peoria, Illinois, to a series of questions propounded to him by the Clerk of this city. The replies, officially given, need no comment from us to add to their force:

City Clerk's Office,
Toledo, O., March 6, 1872.

To the City Clerk of Peoria, Ill.—Dear Sir: Understanding you have in your city the Holly system of water works I am requested by the water works committee of our Council to solicit from you answers to the following inquiries:

1st. The cost of the works, with the number of miles of mains and sub-mains laid down? Answer: See pamphlet sent you.

2d. The annual cost of running the works? Answer: About $12,000.

3d. The gross annual income from rents and all sources? Our water rates are very low. Answer: About $27,500, $10,000 of which is charged fire department water, being $50 per year for each fire plug.

4th. The length of time the works have been in operation? Answer: Since July 1, 1869.

5th. The per centage of increase each year over the first year from receipts of rents, etc.? Answer: About 50 per cent.

6th. Its comparative value, based on your experience, as a protection against fire, and its economy as compared with a fire department, which would be equal to it in effectiveness? Answer: Far superior to any fire department. We could not have a department that would equal it in effectiveness, only at an enormous expense.

7th. The number of fire hydrants you have connected with your works? Answer: 200.

8th. The capacity of each hydrant, the hight to which water can be thrown through [illegible], and the number that can be worked at once effectively for fire purposes? Answer: Each hydrant is equal to a steam fire engine. We have thrown 13 streams of 1 inch at one time over 100 feet in hight, and could throw more if necessary. Six 1½ inch streams have been thrown on a fire at one time. We have [illegible] damage by water nearly as [illegible] as damage by fire.

9th. The greatest distance from the source of supply water is forced for fire purposes? Answer: Nearly four miles.

10th. The annual expense of your fire department previous to the construction of the works, and the present expense? Answer: Previous to construction, about $15,000; now at $4,500.

11th. An approximate estimate of what would now be the cost of your Fire Department without Holly Water Works? Answer: About $20,000.

12th. Has any serious accident happened to your Works or mains since their construction, and if so the cause? Answer: None.

13th. Has your experience in it satisfied you that the system is one which can be enlarged and expanded, so as to provide for the future wants of your city, as well as it does for present ones? Answer: It does.

14th. Is the system generally popular with your citizens, and has it met fully the guarantees of its builders, and the expectations of the advocates of the system? Answer: Very popular, and is all that it was guaranteed to be.

15th. The present population of your city? Answer: About 26,000; the census of 1870, 24,870.

16th. From what source do you obtain your supply of water? Have you connected with it a system of filteration? and if so, does it purify the water so as to make available for drinking and culinary purposes? Answer: From the Illinois river; we do not filter the water, although we have a filter bed in [illegible] with the works. The water from the river is very clear, except for about a [illegible] in the Spring.

[illegible] fire the Holly system [illegible]. Previous to the Chicago fire the insurance in the city was reduced nearly one-half. Now some of our largest manufacturing establishments do not insure at all, but have provided themselves with hose and had an additional fire plug put in at their own expense.

Our Fire Department now consists of three hose carts only—the men are paid a small [illegible]—the carts are run with horses.

As to how high water can be thrown: We [illegible] a solid 2-inch stream 229 feet. Where a large quantity of water is wanted we have a [illegible] that attaches to both [illegible] in the plug. We have had no fires since the completion of the works but what were easily subdued.

Any other information asked for will be cheerfully given. Yours, truly,

H. H. FORSYTH,
City Clerk.

The California Earthquakes.

A letter to Col. Whipple of Lone Pine, now in San Francisco, written by the Secretary of the Board of Relief, gives the following additional particulars concerning the earthquakes. The letter is dated March 31st:

Since your departure, we have had continuous earthquakes during intervals of an hour or two. Further destruction has not been caused, but our people are suffering, a great number having lost their all. Contributions have come in from Cerro Gordo and Swansea to the amount of $1,000, and Belshaw has promised more.

For the moment we have relieved our people with flour and other necessaries. Do your best, for you know the extent of our damages, and rest assured that you will have the thanks of this community. While writing this, we have had two strong shocks, and I am getting nervous. Colonel, we have both been soldiers, but I acknowledge that I am a coward in an earthquake. Such a continuation of shocks—probably seven thousand in three days—has never been heard of in ancient or modern times. We are demoralized; but your Committee will stand by as long as Providence will permit. *The whole valley has been moved to the southward fourteen feet.* During the nights we have continuous reports like a dozen parks of artillery being fired, but without shocks, and a moment afterwards we would literally tremble in our boots. We will report proceedings from day to day.

P. S.—A shake closes.

The good people of Boston are going to have a monster concert some time next month, at which twenty-six thousand five hundred persons are to join in the chorus. If any unusual disturbance of the elements should occur on that day our readers need not attribute it to the approach of an earthquake or of the final judgment.

The deliberate manner in which Chicago is being re-built is thus illustrated in an exchange: "Let me see," said a boss mason, reflectively, to a burnt-out merchant, "I have got to put up a block for Brown this morning, and a dwelling-house this afternoon for Smith. Yes, I guess we can jerk up your store this noon by taking only half-an-hour's nooning."

FINANCE AND COMMERCE.

Tuesday Evening, April 16, 1872.

Gold in New York, 110¾.

Greenbacks [illegible] buying and 91½c selling.

Steamer California sailed this afternoon for Victoria and Sound ports. She took away a very large assorted cargo—over 300 tons.

Steamer Ajax, from San Francisco, arrived this evening, bringing a large passenger list and freight.

Large quantities of freight were offered at the wharf to-day for the Sound. The California was compelled to [illegible] all available space to accommodate shippers.

The scarcity of disengaged tonnage in San Francisco is said to be unparalleled for this season of the year. But within three months 12,000 tons will reach that port.

The heavy advance in iron will no doubt cause considerable hindrance in railroad building in many parts of the country. Several thousand tons of rails are now all at for Oregon which were purchased before the price went up so high. The market value of these rails is now from $10 to $12 per ton more than when they were purchased, some three months ago.

The changes in the tariff bill by the Ways and Means Committee, reported in the dispatches published to-day, may probably be taken as a correct statement of the changes that will be agreed upon by Congress. Both Houses will be very likely to pass the bill in this shape.

Scarcity of money considerably affects business. It appears that money is very scarce in the interior, notwithstanding the large disbursements since last fall for agricultural products. Remittances are slow. A Savings and Loan Bank would gather together and make available an aggregate of cash which is now distributed widely in small sums and hoarded, doing no good either to the owners or to business.

A few days since the ship *Zouave* cleared at New York for this place. This makes the third vessel on the way.

In response to a request to the Senate Finance Committee, the Superintendent of the Census has prepared a statement of the number of Woolen mills and sets of cards in the United States. The number of mills is 2,782, employing 8,419 cards.

It is estimated that $100,000 per annum is gained to the United States Treasury by the redemption of torn and worn out paper currency, and that at least another $100,000 is destroyed in circulation.

A new brand of Yeast Powders—Rumford's—is on the Market. It is warranted equal to any other brand.

From the *Bulletin* we learn that Walter Jackson, Esq., who for several years has been Secretary of the Woolen Mills at Salem, went to San Francisco by the steamship *Oriflamme*, for the purpose of inquiring into the feasibility of establishing a depot and salesroom for their woolen productions in that city. The products of this manufactory have been for sale there for a number of years at the house of William G. Badger & Co., but they were too much engrossed with other business to pay more than a passing attention to the woolen goods; but even with the slight attention the goods became quite well known and were eagerly sought after. It is thought that a depot in San Francisco, with an energetic man like Mr. Jackson at the head of it to direct and push things, would soon enable the manufactory to increase its laboring force very materially and consume a great deal more wool.

From the San Francisco *Alta*, of the 13th we take the following relative to the supply of money in that market:

The great abundance and cheapness of capital in this State at this moment contrasts with the dearness and high rates which prevailed three years since when the earthquake of October, 1868, and the completion of the railroad causing a cessation of its construction expenditures, together with the decline in the price of Wheat, had considerably diminished resources. It is only within six years that the Savings Banks have come to be a financial power of sufficient influence to govern the rates of money; but that power is now great and increasing. Its accumulations of capital have been a great support to Real Estate, and thereby released private funds from it for other employments, until the best obtainable class of securities here will give little higher interest than is obtained at the East on the best class of land grant railroad first mortgage bonds. The floating capital here has accumulated of late faster than the means of employing it, and the result is the lower rates for its use.

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice the Company will be at liberty to sell the land to any other person."
